

Evacuation Plan

Flooding Event

- 1) During months of operation, May to September, the weather forecast will be reviewed on a daily basis. This review will typically occur in the morning hours prior to the operating times. If the weather forecast calls for flooding, the business will be closed to customers.
- 2) The power and water will be disconnected from the trailer and the mobile unit will be moved to the Town's lot on Route 15 which is outside of the Flood zone.
- 3) The outdoor seating furniture will be moved to the upper lot, as will the porta-potty. The chicken tractor will also be moved to either the upper lot or to the Town's parking on Route 15. (see attached map).
