

Manager's Report

- A & E provided an updated on the wastewater plant project and the funding surrounding it. Depending on how bids come in there is some flexibility in getting Lagoon #1 sludge cleaned out and disposed of with state funding. The state pollution control grant for an extra 220K was not originally anticipated so the town has the option of increasing the Clean Water loan amount above the 1.1M to cover some of these costs without impacting the bond amount. We will still need to utilize other funds to address the sludge cleanout.
- The minimum fireworks show went up to 5K. We budgeted for 3K so we will need to kick off a fund-raising campaign if we want a Memorial Day show. Supply chain and inflation are all part of the increases.
- NEK Broadband is hosting a Town Hall style meeting to update town officials on their build out strategy and to answer questions regarding ARPA funding. The Town Hall meeting will include officials from Albany, Craftsbury, Greensboro, & Wolcott. I think someone from the board should attend. The meeting will be held virtually on Thursday February 24th 12:30-1:30 pm.
- We are looking for members of the public to join the Recreation Committee. We are down to one member and in the recreation coordinator.
