

Free Webinar Household Water Supplies in Vermont

Webinar Description

Join us for a free webinar on issues impacting household drinking water supplies (wells and springs) and residential water quality in Vermont. This webinar is intended for local officials, residents, and anyone who would like to learn more about the basics of wells and springs. We'll discuss water testing recommendations and how to protect your water quality. Hear about common problems with wells and springs from technical assistance providers and from the Vermont Department of Health. Learn about new grant opportunities to replace failed water and septic systems.

Tuesday, March 14, 2023

6:00 pm — 7:30 pm
