Kristen Rose  
Lake Elmore, VT  
802-888-0000  
[roseenvironmentalllc@gmail.com](mailto:roseenvironmentalllc@gmail.com)

**Lauren Sopher, MS.**, District Wetlands Ecologist in the Department of Environmental Conservation of the Vermont Agency of Natural Resources ~ 802-798-6634  
~ [Lauren.Sopher@Vermont.gov](mailto:Lauren.Sopher@Vermont.gov)

Lauren Sopher is the new contact for the Wetlands Program for Caledonia and Essex Counties. The Zoning Office has business cards for Lauren but we encourage you to request a site visit or a site review through the [Wetland Inquiry Form](#). Additionally, here is a helpful snippet about how landowners and land buyers can check for wetlands:

- Check to identify if there is a wetland on property you are looking to purchase and develop. There are several ways that you can check for wetlands:
  - [Wetland Screening Tool](#): use this tool for the easiest and recommended way to see if a property has wetlands or to know if your plan may be affected by wetland laws.
  - Identify wetlands on the ground: refer to our [What is a Wetland?](#) page with information on how to identify a wetland. Our [Landowner's Guide to Wetlands](#) is a handy guide that includes a checklist to help spot a potential wetland or buffer zone on the ground.
  - [Check for Wetlands Before You Buy or Build](#) educational campaign.

Visit the [Wetlands Program website](#). Read [frequently asked questions about wetlands](#).

*Please note: by Vermont law, landowners and/or contractors are not allowed to disturb ground within 50 feet of an identified wetland without a wetland permit.*
