Hello Mr. Upson and the Hardwick Select Board,

I am reaching out regarding our Community Composting Pods, to increase the accessibility and viability of a food scrap collection service for Hardwick residents. As I am sure you already appreciate, these programs dramatically reduce waste sent to the landfill, mitigate water quality and climate change impacts from the landfill and the fertilizers used to replace them, and retain critical agricultural resources, like organic matter and nutrients, in the local food system, while also retaining dollars and jobs in our local economy. Additionally, as you know, for these reasons and others, as of 2020 Vermont mandated by law that all residents and businesses divert their food scraps from the landfill for beneficial reuse and/ or recycling.

Currently this program operates as a 'fee for service' model, in which residents subscribe to the program for \$2 per week on an honor-system basis for use of one of five different locations throughout Hardwick, where they can dispose of their food scraps (four in Hardwick Village, one in East Hardwick). While the Pods are broadly used by many community members and fill up each week, the level of subscription has never kept pace with the actual use (in other words most people who use the Pods are not paying a subscription fee). We are thrilled by the level of participation and excited that the community is so broadly involved in composting, but we can no longer subsidize this service. We would like to explore alternative models with the Town of Hardwick for covering these expenses and ensuring the long-term viability of the service.

As the Town is aware, Black Dirt Farm, with support from the Town of Hardwick and the Central Vermont Solid Waste Management District, established a Community Composting Pod program in 2022. This program was established in response to the needs expressed by the residents of Hardwick for more affordable and accessible food scrap drop off locations. Historically, the Hardwick community had access to a centralized food scrap drop off location located next to the old bank building at 21 Mill Street. This location featured six 48-gallon containers and was serviced weekly for roughly 5 years. It was widely used and appreciated, and the cost of servicing it was covered by the Central Vermont Solid Waste Management District (CVSWMD), as it did in several other towns operating similar drop-off programs. Sometime around 2015 the CVSWMD changed its policies and asked the Towns to take ownership of those programs. Most did, however Hardwick chose to discontinue the program and over the following several years there were multiple committees set up to explore feasible alternatives, none of which yielded anything. During these years Hardwick residents who were not composting at home, were either utilizing the services at All Metals Recycling (which were reportedly quite expensive), illegally making use of municipal drop-off sites in other towns contracting for services, like Greensboro or Wolcott, or driving to the free drop-off site in Stannard at Black Dirt Farm. We received a large volume of calls and emails during this time from Hardwick residents complaining about a lack of options.

In 2020 Black Dirt Farm received a small start-up grant from CVSWMD to pilot an innovative, semi-centralized model we called Community Composting Pods, each designed to service roughly 20 households, and we launched the program in the spring of 2022. The intention behind the Pod model was to create fee-for-service model that would improve access for Hardwick residents at an affordable price with a low regulatory requirement. Additionally, the Pod concept was intended to support a thriving community social environment by creating a service within walking distance of residences, and encouraging neighbors to have more unstructured, informal contact with one another. Each location has an established station with signage that also secures the containers to mitigate/ prevent animal access to the containers.

Enrollment was slightly more than 50% at its peak, and yet the locations are generally full each week, suggesting roughly half of the residents utilizing the program were not paying the \$2/ week subscription fee. Despite posts on Front Porch Forum, our own social media posts and emails, and posters and notices at each of the Pod locations, enrollment has not improved, and has, in fact, declined. We estimate that only 30% of users are paying a subscription fee currently. While this is disappointing, it is worth noting that even non-paying users are doing an excellent job keeping trash out of the food scraps, applying wood shavings after depositing their food scraps, and otherwise using the locations respectfully and properly. Additionally, we receive lots of enthusiasm and expressions of support for the current model. Generally, people like the neighborhood quality of the model, the access it provides, and the cleanliness of the service.

Black Dirt Farm services each location once per week with specialized collection equipment and thoroughly washes every container with a hot water pressure washer every time we pick up. We supply wood shavings at each location to minimize odors, flies and four-legged foragers. We have real costs associated with providing these services and for us to keep supplying them, we need to revisit the business model to support them.

We would like to explore a new business model with the Town, in which the Town oversees these locations and contracts with Black Dirt Farm to service them. Other alternative approaches, such as centralizing collection in one place, could also be considered. We are currently under contract with the Towns of Wolcott and Greensboro to provide services in this manner.

There are three basic scenarios to consider – the present Pod model, the Pod model with twice the capacity at each location, and a centralized model. The two Pod models could be expanded, and additional locations could be set up to service more neighborhoods. A centralized system would require establishing a location to handle greater volumes of material and would require permitting.

In the present version, utilizing the Pod model, each location features one food scrap container (as well as one for wood shavings) serves roughly 20 households, and costs \$50/ week to service. These locations are on private property, except for the Creamery Road site, which is on Town land. All locations are registered with the Vermont Agency of Natural Resources and can legally accept twice the volume (2 containers) than they are currently handling. If a second container was sited at each location (requiring the consent of Pod hosts and a modest upgrade to each location to prevent animal pressure), they would be able service twice the households, and the cost per unit would come down. In this scenario each location would cost \$66/ week. If the Pod model were scrapped and a centralized location were established the cost per unit would essentially be the same as the second scenario above.

Black Dirt Farm would like to collaborate with the Town of Hardwick to develop this next iteration of programming to serve the composting needs of Hardwick residents, while ensuring the economic viability of the model. We would like to have a new model in place by the end of January 2026. If there is sufficient interest from the Select Board, we would be happy to put a more detailed proposal together for your consideration. Please let me know how and if you would like to proceed with the discussion. If the Town is uninterested in proceeding with the discussion, we will likely have to consider discontinuing services at the end of the calendar year.

Sincerely,

Tom Gilbert and the Black Dirt Farm crew

CAPACITY AND RESILIENCY PROGRAM TIER I FINANCING**

WHEREAS, at a meeting of the Selectboard of the Town of Hardwick ("Town") held on January 8, 2026, the Selectboard members determined that the public interest and necessity require that the Town seek a Small System Capacity and Resiliency Program Tier I (SCRP) Loan through the Vermont Bond Bank for the purpose of paying for repairs to flood damaged infrastructure due to rainfall and flooding in the summer of 2023;

WHEREAS, the Town seeks to finance \$1,700,000 to rebuild its lift station that was damaged in the July 2023 flooding;

WHEREAS, the Town expects to be reimbursed for a portion of these flood-damage repairs by FEMA and the State of Vermont; however, these reimbursements may not occur in a timely manner;

WHEREAS, the Town does not have sufficient funds to pay its current expenses until it is reimbursed for the flood-damage repairs;

NOW THEREFORE, BE IT RESOLVED, that the Town should issue a General Obligation Note to the Vermont Bond Bank for the purpose of obtaining an SCRП Loan in the amount of \$1,700,000 to pay current expenses in anticipation of the FEMA and State of Vermont reimbursement;

BE IT FURTHER RESOLVED, that, pursuant to 24 V.S.A. § 1786, the Selectboard may borrow money by the issuance of its notes or orders for the purpose of paying current expenses, and such notes or orders must mature within one year from issuance;

BE IT FURTHER RESOLVED, that, should FEMA and State of Vermont reimbursement not occur within a year of issuance of the Note to the Vermont Bond Bank, the Town will seek any necessary voter approval for continued financing;

BE IT FURTHER RESOLVED, that by this Resolution of Necessity, the Selectboard hereby confirms the necessity of borrowing money through the SCRП to pay current expenses and authorizes the issuance of a note to the Vermont Bond Bank related to the same.
