

Minutes 06-14-2026 Buffalo Mountain Town Forest Steering Committee Site Tour

Committee members present: Brendan Buckley, Tyler Buswell, Paul Cillo, Renaud Demers, Lucian Avery, Leif Goldberg, Joe Nudell, James Kelley, Julie Sullivan

Others present: Hannah Redmon, Jack Travelstead, Rachel Kane, Maureen Demers, Helen Beattie

The group hiked into the Buffalo Mountain property from Atkins Field and back.

The group drove around to the intersection of Wright Farm Rd and Route 15. From there, all present walked into the floodplain along the river and discussed potential river access with a mowed trail and the potential for a riverbank clean-up.

All present hiked up Wright Farm Road toward the old orchard on the upper slopes of the property. Several people turned back past the gate to the old orchard and the remaining group continued to the southern border of the property, turned east, and hiked down through the old orchard.

In the orchard, the group noted the partial view to the north and looked for an old cellar hole.

From the orchard, attendees made their way back to their cars at their own pace.
