Re: Invitation to Participate in Mill Street and Main Street Safety Study - Local Concerns Meeting on August 13, 2025

Dear Property Owner, Business Owner, or Resident,

The Town of Hardwick is launching a scoping and feasibility study focused on improving safety and functionality along Mill Street and Main Street, and you are receiving this letter because your property or daily activity is likely to be directly affected by any future changes to sidewalks and traffic patterns in this area.

This project is an important first step toward long-term investments in downtown infrastructure. With support from the Vermont Agency of Transportation and engineering consultants from VHB, the Town is examining existing conditions and developing options for improving pedestrian safety, vehicle flow, and overall access in one of Hardwick's busiest and fastest-evolving corridors.

Your voice is essential to this process. As someone with a firsthand perspective on how the street currently functions, whether as a business operator, property owner, tenant, or commuter, we strongly encourage you to attend the upcoming Local Concerns Meeting to share your observations, concerns, and priorities.

Local Concerns Meeting

Date: Wednesday, August 13, 2025

Time: 6:00 PM

Location: Parker Ladd Community Room in the Jeudevine Memorial Library – lower level access

Hybrid Access: Meeting link will be posted at www.hardwickvt.gov

This effort builds on five years of Planning Commission work with walkability, access, and safety downtown. The feedback gathered at this meeting will shape the scope of what is studied and proposed moving forward.

If you are unable to attend but would like to provide feedback, please feel free to email us directly. We can also arrange a time to speak by phone or in person if preferred.

Thank you for your continued support in downtown Hardwick. We hope you will join us in shaping the next phase of its future.

Best Wishes,

Kristen Leahy

Zoning and Floodplain Administrator
